Bibliography
Impedance-pH Monitoring Publications

**Adult Esophageal Impedance-pH Reflux Monitoring**

1. Multiple Intraluminal Electrical Impedancemetry for Recording of Upper GI Motility; H. Nguyen et al.; The American Journal of Gastroenterology; Volume 94; Number 2; 1999

2. Patterns of Gas and Liquid Reflux During Transient Lower Oesophageal Sphincter Relaxation; A Study Using Intraluminal Electrical Impedance; D. Sifrim et al.; Gut; Volume 44; 1999

3. Composition of the Postprandial Refluxate in Patients With GastroEsophageal Reflux Disease; D. Sifrim et al.; The American Journal of Gastroenterology; Volume 96; Number 3; 2001

4. Acid, Non-Acid, and Gas Reflux in Patients With Gastroesophageal Reflux Disease During Ambulatory 24-Hour pH-Impedance Recordings; D. Sifrim et al.; American Journal of Gastroenterology 2001:120:1588-1598

5. Simultaneous Intraesophageal Impedance and pH Measurement of Acid and Nonacid Reflux: Effect of Omeprazole; M. Vela et al.; Gastroenterology 2001; 120:1599-1606

6. MultiChannel Intraluminal Impedance Accurately Detects Fasting, Recumbent Reflux Events And Their Clearing; S. Shay et al.; American Journal Physiology; Gastrointestinal & Liver Physiology; April 2002;10.1152;G376-383

9. Redefining Gastroesophageal Reflux (GER) Detection Using Multichannel Intraluminal Impedance in Healthy Volunteers; N.S. Balaji et al; Surgical Endoscopy

11/15/2005
Bibliography
Impedance-pH Monitoring Publications

10. Acid Rereflux, A Review, Emphasizing Detection by Impedance, Manometry and Scintigraphy, and The Impact of Acid Clearing Pathophysiology as Well as interpreting the pH Record; S.Shay et al; Digestive Diseases and Sciences, Vol 48, No 1, January 2003; 1-9.

12. Use of MultiChannel Intraluminal Impedance to Document Proximal Esophageal and Pharyngeal Nonacid Reflux Episodes; Tutuian et al; The American Journal of Medicine; Vol 115; (3A); 2003; 119S-123S

13. Esophageal Impedance Monitoring; The Ups and Downs of a New Test; Steven Shay; American Journal of Gastroenterology May 2004: 1020-1022

17. Aerophagia, Gastric & Supraesophageal Belching: A Study Using Intraluminal Electrical Impedance Monitoring; AJ Bredenoord et al; GUT; 2004;53; 1561-1565

18. Minimum Sample Frequency for MultiChannel Intraluminal Impedance Measurement of the Oesophagus; AJ Bredenoord et al; Neurogastroenterology Motility; 2004;16; 713-719

11/15/2005
20. Weakly Acidic Reflux in Patients with Chronic Unexplained Cough During 24 Hour Pressure, pH and Impedance Monitoring; D. Sifrim et al; GUT; 2005; 54;449-454

22. Relationships Between Air Swallowing, Intragastric Air, Belching and Gastro-oesophageal Reflux; A. J. Bredenoord et al; Neurogastroenterology Motility; 2005;17; 341-347

23. The Influence of Postural Changes on Gastroesophageal Reflux and Barrier Pressure in Nonfasting Individuals; Hans-Christian Jeske et al; Anesthesia Analg.2005; 101: 597-600

24. Direct Comparison of Impedance, Manometry and pH in Detecting Reflux Before and After a Meal; Shay & Richter; Digestive Disease & Sciences; Vol 50, No 9, pp 1584-1590.

26. Direct Comparison of Impedance, Manometry and pH Probe in Detecting Reflux Before and After a Meal; Shay & Richter; Digestive Diseases & Sciences, Vol 50, No 9 (September 2005),pp1584-1590.

Bibliography
Impedance-pH Monitoring Publications

**Adult Extra-Esophageal Impedance-pH Reflux (LPR) Monitoring**

Pediatric Impedance-pH Reflux Monitoring

2. Intraluminal Impedance: an Ideal Technique For Evaluating Pediatric Gastroesophageal Reflux Disease; T. G. Wenzl, H. Skopnik; Curr Gastroenterol Rep 2000, 2: 259-64

5. Gastroesophageal Reflux in Infants: Evaluation of a New Intraluminal Impedance Technique; H. Skopnik et al.; Journal of Pediatric Gastroenterology and Nutrition; Volume 23; Number 5;591-598; 1996

6. Esophageal pH Monitoring and Impedance Measurement: A Comparison of Two Diagnostic Tests for Gastroesophageal Reflux; T. Wenzl et al; Pediatric Gastroenterology and Nutrition 2002; 34:519-523

8. Effects of Thickened Feeding on Gastroesophageal Reflux in Infants: A Placebo-Controlled Crossover Study Using Intraluminal Impedance; T.Wenzl et al; Pediatrics; Volume 111 No 4, April 2003.

9. Evaluation of Gastroesophageal Reflux Events in Children Using Multichannel Intraluminal Electrical Impedance; T. Wenzl; The American Journal of Medicine; Volume 115 (3A) 161S-165S;2003
Bibliography
Impedance-pH Monitoring Publications

10. Influence of Nasogastric Tubes on Gastroesophageal Reflux in Preterm Infants: A Multiple intraluminal Impedance Study; Peter CS et al; Journal Pediatric 2002, 141: 227-9

11. Investigating Esophageal Reflux with the Intraluminal Impedance Technique; Wenzl TG; Journal Pediatric Gastroenterology Nutrition; 2002, 34: 261-8

12. Detection of Small Bolus Volumes Using Multiple Intraluminal Impedance in Preterm Infants; Peter CS et al; Journal Pediatric Gastroenterology Nutrition; 2003, 36: 381-4

13. Gastroesophageal Reflux; A Critical Review of Its Role in Preterm Infants; Poets FP; Pediatrics; Vol 113 No 2; Feb 2004
